

**HASP2010
UND-UNF Payload**

**University of North Florida Team
Monthly Status Report for February 2010**

UNF Students Team

Nathan Walker, Bernadette Quijano, Jason Saredy and Ryan Shore

UNF Faculty Advisors

Dr. Nirmalkumar Patel, Department of Physics and
Dr. Choi Chiu, Department of Electrical Engineering

Our team did the following work during February 2010:

- (1) Preliminary design review for nanoocomposite ITO gas sensors and construction of payload body is going on.
- (2) Fabrications of new series of sensors are going on. Testing will be initiated in the next month.
- (3) Purchase of parts such as heater, temperature sensors, payload body materials, and other items are going on.
- (4) Experimental set up for the calibration of sensors are under modification.

Further work on the UND-UNF payload is in progress.
