

**HASP2012
UNF Payload
Monthly Status Report for February 2012**

UNF Team

Faculty Advisor:

Dr. Nirmal Patel
Email: npatel@unf.edu
Phone: 904-620-1670
Cell: 904-200-2855

Students:

- (i) Rebecca Polo

- (ii) Mr. Jason Saredy

UNF team did the following work during February 2012:

- (1) Fabrication of new series of ozone sensors was initiated.

- (2) A handheld measuring system (Fig.1) developed by Jonathan Wade is under testing to measure concentration of test gas. Most of circuit parts of the system are based on the HASP2011 payload. This will be useful to test sensors without need of a multimeter and PC.
