One more student will be joined soon.

UND-UNF team did the following work during April 2013:

- 1) UND has maintained our weekly Friday meetings, discussing our progress with Dr. Patel and Dr. Naima Kaabouch (UND).
- 2) UND/UNF submitted our PSIP report this month.
- 3) UND is researching satellite modems to provide a cost effective, reliable, communication link between the UND/UNF payload and UND/UNF team.
- 4) Printed wiring boards are designed but may need to be modified to accommodate the satellite modem option should the team choose this path.
- 5) UNF has chosen to stay with the same payload body design and will reuse the 2012 payload body in the 2013 design thus reducing cost and design time.
