

# **Scarlet Hawk II-HASP 2014**

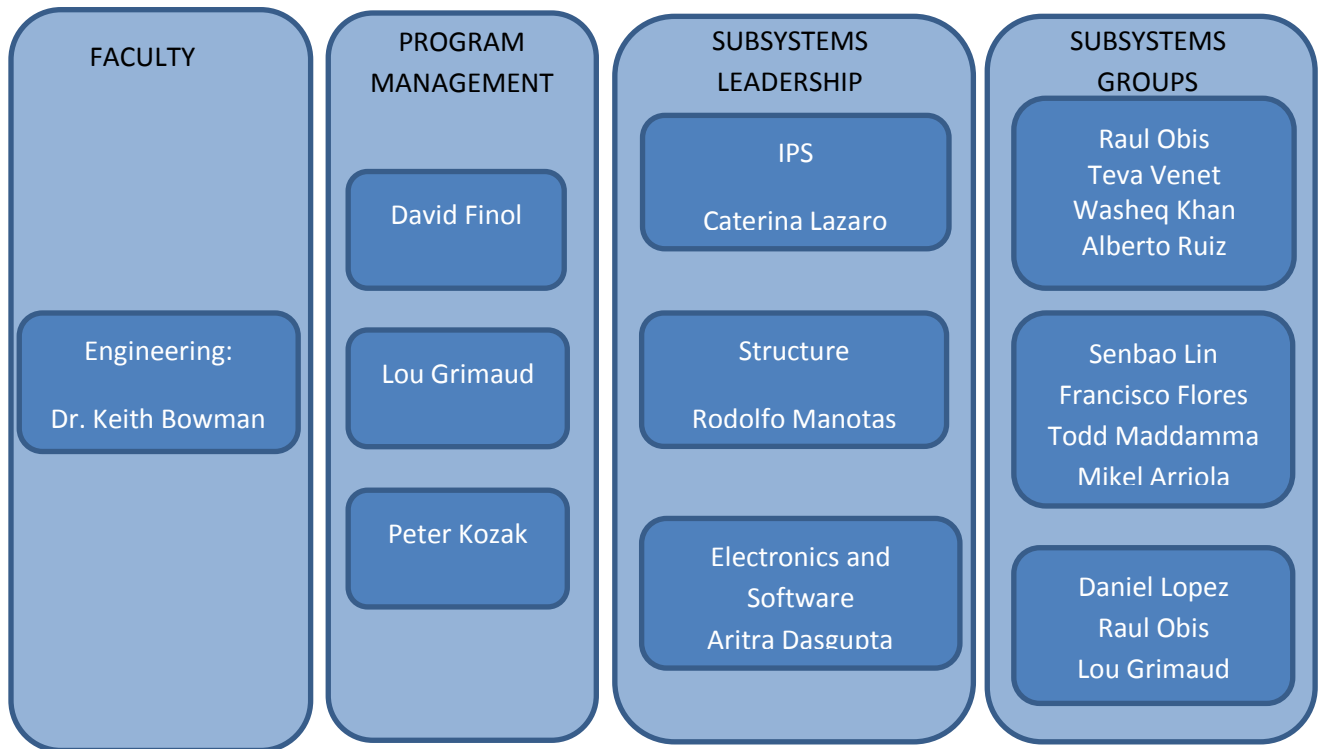

**September Status Update**

**09/26/2014**

## Summary of Progress

The team started working on the flight data processing this month. The payload was received and opened. The team recorded and took pictures of all the anomalies. An initial assessment of the structure's integrity was made. All the electrical components underwent a functionality check and no outstanding issues were found. Synchronization of the internal flight data with HASP flight data was also made. The team will then be further working on the data processing next month.
