Two more students shown their interest in the HASP 2014 project and they will be joined by next week. The complete information of students' team will be submitted to Dr. Guzik and Mr. Michael Stewart soon

UND-UNF team did the following work during January 2014:

- (1) The team reviewed work done, problems, failures and results of the previous HASP flights made since 2008. They are working on how to improve the payload and avoid all possible issues.
- (2) Discussion of objectives of HASP 2014 payload has been initiated.
- (3) Preliminary outline of HASP 2014 project objectives has been started.
- (4) Recently, the teams received the comments on HASP 2014 proposal from Mr. Michael Stewart. We sincerely thankful to him and all reviewers for their useful comments to improve our work. We are reviewing the most of comments. We will reply the answers of all comments before due date in the next month.
- (5) Few students will added in the both UNF and UND teams.
