

## University of Colorado at Boulder HELIOS V Team November Status Report

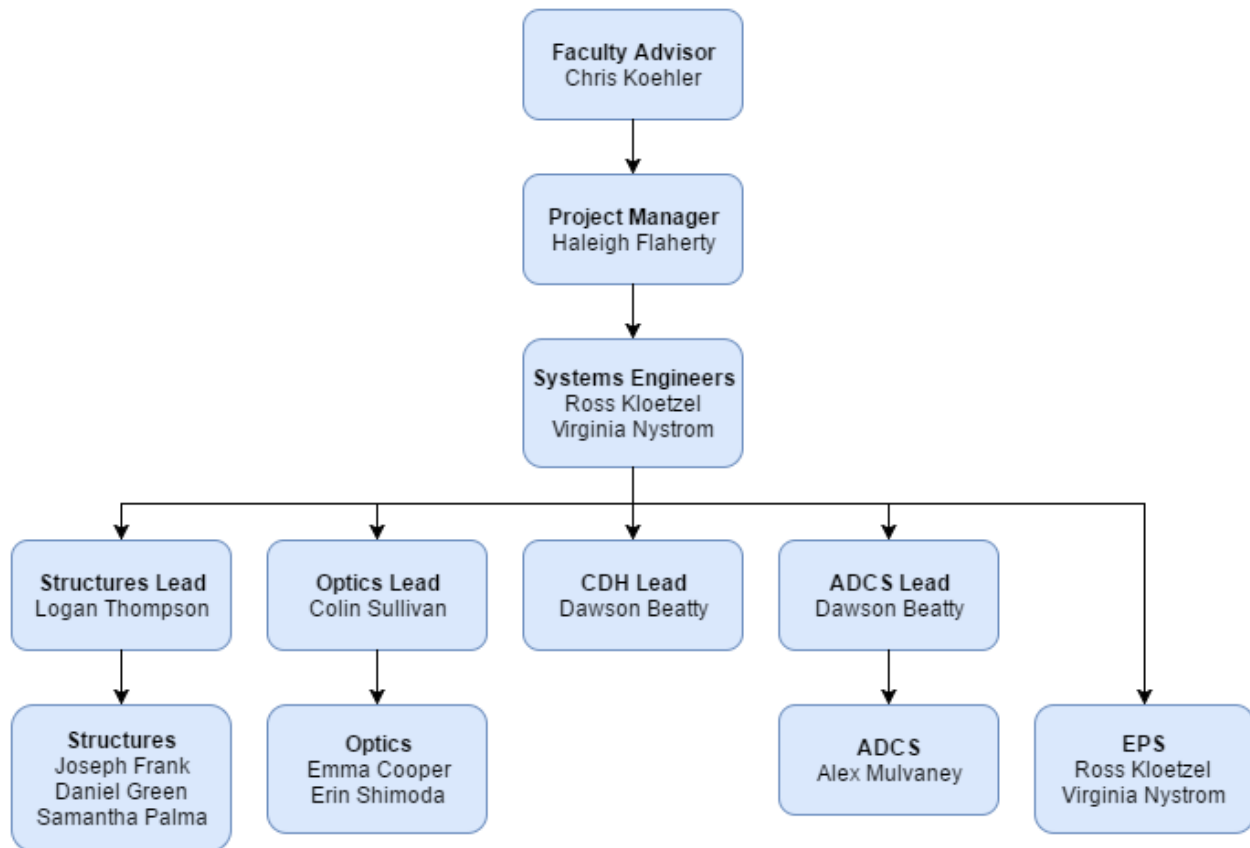

The month of November has been dedicated to preparing for the final report. To do this, the team had a final data presentation that was presented to students and staff at the Colorado Space Grant. This presentation was formatted the same way as the paper, and presented the team's design, testing, flight, and results. The team got some fantastic feedback from this presentation on how to improve the presentation of their results. Since then, the team has been applying the feedback to writing their final report. The first draft of the report was completed Friday, Nov. 18<sup>th</sup> and was reviewed and revised over the Thanksgiving break.
