Promising Programs & Practices (P³)

A monthly info session for, and by, the National NASA Space Grant Community
January 2023 Session: **Monday, 01/23/2023 @ 3 pm Eastern**

Best Practices & Lessons Learned on All Things Finance

Presented by Shirley Campbell (NSGF), Chris Flynn (MT), and Susie Johnson (ID)

All 52 Space Grant Consortia have different models of operation. We are looking to share best practices and lessons learned on all things finance - from paying students to managing sub-awards to identifying new sources of cost share - and everything in-between. This P3 session will use responses from a SG Finance Survey to understand the variety of financial operations happening across Space Grants, and to gather finance-related questions and topics of interest from as many Space Grants as possible. Please fill out this survey by January 17, 2023 ([linked here](#)).

Shirley Campbell has served as the Assistant Director of the National Space Grant Foundation for the past fourteen years. Her primary duties include fiscal management of federal and non-federal restricted funds; program administration; and daily operations. Additionally, Ms. Campbell worked in higher education for thirty-eight years which included 20 years with the Oregon NASA

Chris Flynn has been working at MSU for almost 30 years in various roles associated with administration of department and grants management. She began working with MT Space Grant in 2012 as the program manager and oversees financial accounts related to MTSGC and MT NASA ESPCoR, processes student appointments, manages all MTSGC sub-contracts, and coordinates efforts with

Susie Johnson is the Associate Director for the Idaho Space Grant Consortium. She's been a part of the Space Grant family since 2013. Susie will review the survey results and gather feedback on what would be useful for a financial session at our 2023 Space Grant National Meetings.

Space Grant. Her fiscal management experience included state funding for higher education, research awards for pre- and post-award funding responsibilities including cost share and subcontracts, and non-profit foundation funds.

NASA administrators, other federal and state officials and MTSGC affiliates.

Program Agenda Estimates

- 3:00 pm EDT: Icebreaker/Announcements
- 3:10 pm EDT: Presentation with Q&A
- 4:00 pm EDT: Open discussion

About P3: Promising Programs & Practices is a monthly info session organized by the Space Grant Communications Working Group. On the second Monday of the month, we feature promising programs or practices from members of the National Space Grant community. Affiliates are welcome/encouraged to attend. Slides and videos of past presentations are distributed via the Space Grant Coordinators and Directors listserv, and the new Communications Working Group listserv which includes affiliates of our programs. Past presentations and resources can be found at <https://laspace.lsu.edu/promising-programs-practices-p3/>.
